PROFILE

Graduate Full-Stack Developer with hands-on experience building full-stack applications using React, TypeScript, Node.js, and SQLite. Trained in agile methodologies and modern development practices at Dev Academy Aotearoa. Proven ability to collaborate in team environments, solve problems efficiently, and build responsive user interfaces. Strong foundation in customer service and technical roles, combining interpersonal strengths with technical expertise to drive success in development projects.

TECH SKILLS

Frontend: HTML5, CSS3, Tailwind, JavaScript, TypeScript, React.

Backend: Node.js, REST APIs, Auth0, SQLite3, Knex.js, SuperAgent, Express.js.

Tools & Testing: Git, GitHub, Vitest, DevTools, VS Code.

Methodologies: CI/CD pipelines, Agile, TDD.

PROJECTS

Backend Lead | [Bite-Share](#)

- Developed a responsive full-stack web application to reduce food waste by connecting surplus food donors with recipients.
- Implemented backend API routes using Node.js and Express; created secure database schemas with Knex.js and SQLite3.
- Designed and integrated frontend components using React and TypeScript.
- Facilitated agile ceremonies including stand-ups and retrospectives to enhance team productivity.

Backend Lead | [Food-Recipes](#)

- Built a fully functional recipe application during a one-day sprint.
- Led backend development using Express and Knex, connecting to a SQLite3 database.
- Worked with React, React Query, and TypeScript to deliver a responsive and user-friendly frontend.
